

BASEL HAMMAMI

Lead Product Designer (Individual Contributor)

basselhammami@gmail.com • baselhammami.com

SUMMARY

Product designer with 5+ years designing digital products across the GCC, including banking and government services. I take a big-picture, systems approach to complex platforms, balancing business goals, regulatory requirements, and user needs to ship products that scale. Computer Science graduate, fluent in Arabic, Russian, and English, and comfortable working across product, engineering, and business teams.

EXPERIENCE

RAKBANK | Product Designer

Oct 2024 – Present · Dubai, UAE · One of the UAE's largest retail banks

- Own end-to-end UX for the Client Lifecycle Management (CLM) platform, a compliance-critical system covering onboarding, KYC verification, and ongoing due diligence for retail and corporate banking clients.
- Redesigned complex compliance forms, including input validation, error recovery, and OCR-assisted data capture, cutting manual rework in verification workflows by an estimated 35%.
- Designed re-engagement journeys for customers with expired KYC profiles, lifting re-verification completion rates and reducing regulatory risk across the customer base.
- Worked directly with compliance, legal, and risk teams to keep UX decisions aligned with Central Bank of UAE requirements without sacrificing usability.

Balady App | Product Designer

Feb 2023 – Oct 2024 · Saudi Arabia · Super-app for municipal and community services

- Designed and shipped navigation mode, free movement, and live location-sharing features for a platform serving thousands of daily active users across Saudi municipalities.
- Built an event-triggered, in-context feedback system that replaced generic surveys, giving the team clearer, more reliable user input for product decisions.
- Set up reusable interaction patterns and component standards across the platform, making new features faster to roll out while keeping the experience consistent.

Maids.cc (by Tadbeer) | Product Designer

Jan 2021 – Oct 2023 · Dubai, UAE · Regulated domestic workforce marketplace

- Led the full redesign of the web platform and built the mobile hiring flow, turning a process governed by UAE labor regulations and Tadbeer compliance rules into a fully digital experience.
- Built a responsive design system that kept the experience consistent across desktop, tablet, and mobile for a marketplace operating under regulatory oversight.

SKILLS & TOOLS

Design: Figma, Prototyping, Design Systems, Interaction Design, Information Architecture, Wireframing

Domains: KYC/AML Compliance, Risk Assessment, Client Lifecycle Management, Identity Verification, Regulated Marketplaces

Methods: User Research, Usability Testing, Stakeholder Workshops, Journey Mapping, Data-Informed Iteration

Technical: HTML/CSS, JavaScript, Responsive Design, API-aware Prototyping, Developer Handoff

EDUCATION & LANGUAGES

B.Sc. Computer Science, Tishreen University, Syria (2013–2018)

Languages: Arabic (Native) · Russian (Native) · English (Fluent)
